Bullene, Moore Formery bo,

Investing money is a science. The money you pay for meat goes into consumption. The money you pay for a pleture is an investment. That which Muggins 2:20 1-2, is Sold for you pay for a coat or wrap is partly both, but more like investment.

Therefore if you put thousands into bonds or even dollars into a wrap or picture, you want to know the future -if you can. When you buy a thing January, promises to be one of the most flourishing churity in Topeka, the Kin-which you are to keep for some time extensive exhibitions of the kind ever dergarten association. The big andi-at any per cent.—20, 30, 40, 50—less given in the state. The North Kansas ence was there largely from the same than you would pay for it in the future | the difference is extra profit.

Your practical question is, how will to-Our notion is that next December they Our notion is that next December they will be given. The premiums will ag-will seem marvelous. We expect to gregate five or six hundred dollars. sell fors next year at prices very low, but we also expect that bargain prices now are far less than they will be next year. This reasoning touches particing here. If you are prodent these profits may be yours. The comparative profit - the difference between our mands of court, but in this case he will probably be atterly unable to do what prices and the market. The positive we are selling them at to-day and what we shall sell them at next year.

If you care to know the basis of our opinions consult these columns.
